Description

This is a beautifully detailed cold-painted bronze model of a kingfisher created by the highly collectable Franz Xavier Bergman. He carries a clear Bergman mark on the underside of his tail and is a slightly fearsome looking chap, with beady eyes and sharp claws. There is some paint loss to the claws and underbelly, but no more than would be expected for an item of this age - he will date from around 1900. Dimensions: Weight: 715g Height: 13cm Length: 20cm Width: 6cm. Post and packaging are free within the UK. Overseas buyers please e-mail for postage costs and please note: Import duties, taxes, and charges are not included in the item price or shipping cost. These charges are the buyer's responsibility. Please check with your country's customs office to determine what these additional costs will be prior to buying.
