Date of manufacture: 1930

Description

A superb solid sterling silver caddy spoon. It is marked STERLING possibly American, I would date it to c1920-1940. It has been superbly designed with the bowl being in the form of a leaf and a looped stem terminal. It is in super condition being free from dings splits distortions and repairs. It measures approx. 3.75 inches (9.6cm) long by 1.25 inches (3.2cm) wide and weighs 18 grams. A beautifully made example.
