Description

Antique Lady Waltham fob watch, 1901. The watch has a 16-jewel stem-winding movement which is working nicely. This is a high grade movement with screw set jewels in gold settings, beautifully patterned plates and a patent regulator. The movement is fully signed and it has the serial number 11,041,017 which dates it back to 1901. The movement is protected by an inner hinged cover. The watch measures 40mm diameter excluding the winding stem and the loop. The case is gold plated and it is in good condition, just a little unevenness and marking to the back but not too serious. The acrylic lens is in lovely condition. The signed dial is in lovely condition. The watch comes in a new presentation box.
