Description

This attractive Johann Loetz glass vase displays a classic baluster form with a gently flared rim, enriched by a vibrant iridescent surface in olive green and golden tones. The glass exhibits a subtle, crackled Phänomen-type finish, giving depth and movement to the ground. Overlaid in silver is a refined Art Nouveau design featuring a stylised flowering stem, with sinuous leaves and curving tendrils extending symmetrically across the body. The decoration is both bold and elegant, complementing the organic character of the glass. The polished silver rim provides a crisp finish, enhancing the overall harmony and decorative appeal of the piece. **ADDITIONAL INFORMATION** Height: 16 cm Diameter: 10 cm
