Item Reference: SA1208482

Date of manufacture: 1930

Description

1930s Favor full hunter pocket watch, super condition. The watch has a stem-winding movement which is working nicely. The movement is protected by an inner hinged cover. The watch measures 51mm diameter excluding the winding stem and the loop. The inside of the case back has the wording, "Walz Gold Double". Walz was a German case manufacturer and supplier to Swiss and German watch factories. This particular case is marked as being gold filled with a plate thickness of 60 microns, most watch cases tend to be 10 or 20 microns so this is a very good quality example. The case is in very nice condition. The winding crown pushes in to release the front cover. Inside there is an acrylic lens which is in lovely condition (there is reflection showing in the photos because the case is so shiny and reflective). The dial is signed Favor, a brand name registered by at least nine companies over the years but we believe this to be a Schätzle & Tschudin piece. The dial is in beautiful original condition with original hands, a subsidiary seconds dial and outer minute markers. The watch comes in a new presentation box.
