Description

Circa 1900-1910 a late Victorian brass chamberstick with the candlestick on a fitted tray with a nicely shaped handle with copper fittings. The candlestick measures 28cm in height and across at the widest part it is 24cm, and it takes a 2cm in diameter candle. The twisted brass candle unscrews from the base for easy packing, or storing, and the whole thing is in good condition. We have another almost identical chamberstick on our website. Postage and packing within the UK mainland is included, but for outside areas please contact us for a delivery quote.
