Date of manufacture: 1880

Description

Impressive antique Continental silver watch chain / necklace. The chain has been formed from an antique pocket watch albert chain... the clasp is typical of the 1930s so that is probably when the conversion was carried out. The chain measures 51cm long and weighs 40g. Each of the links measures 8mm wide and 11mm high so it looks substantial. The chain comes in a new presentation box.
