Description

This elegant 5ft (UK King size) bed is a fine example of early 20th-century craftsmanship, originating from France and dating from around the beginning of the 1900s. It is designed in a classic French Edwardian / Louis XVI revival style, reflecting the refined symmetry and decorative detailing popular at the time. Crafted in rich walnut, the bed displays a beautiful depth of colour and natural grain. Both the headboard and footboard feature striking linen fold panels, a detail inspired by earlier Gothic influences and often incorporated into high-quality European furniture. The headboard is crowned with an attractive pierced crest rail, while both ends are finished with elegant turned finials, giving the piece a stately and timeless presence. To suit modern use, the side rails have been thoughtfully adapted to accommodate the extra length required for a UK King size mattress, allowing for greater comfort while retaining the bed's original character. It comes complete with a bed base, making it ready to use.
