Item Reference: SA1209942

Date of manufacture: 1920

Description

A Early 20th Century Folk Art String Frame in Octagram or Star shape. By looking at the way the gentleman are dressed I would say it dates from just after WWI World War 1, early 1920's. Vivid colours if red, orange, gold, brown and blue. Glazed. The string work has been done around the photo and glass so is permanent, ie the photo cannot be removed. In very good condition for its age, glass still in tact, still bright in colour.
