Description

A good example of a pair of Broad Arm Windsor chairs dating from the mid to late 19th century. They are made from ash and elm and both have a high hooped back enclosing turned spindles with a pierced back splat. They stand on turned legs joined by a H-stretcher. There are some minor differences in sizes between the two chairs but they are approximately 43" (109cm) high and 25 1/2" (65cm) wide across the arms. The seats are 18" (46cm) deep and 17" (43cm) high. They are both in good original condition with a lovely rich patina. There are signs of age and use and some marks, light knocks and wear on the seats and around the legs but nothing detrimental. There have been some repairs over the years but nothing untoward and they are both strong and sturdy. They have been gently cleaned and polished and are ready for use. The best description comes from the photos so please look at them all carefully and if you have any questions just ask. Nationwide delivery available through our network of reliable couriers.
