Description

A truly impressive antique 20th century large breakfront bookcase in pine, very well made and of the finest quality throughout. This substantial piece offers exceptional storage and display capacity, combining both elegance and practicality on a grand scale. The upper section features glazed doors and is divided into three cupboards: a single-door cupboard to the left and right with two internal shelves and a double door cupboard to the centre with a further two shelves. Below, the arrangement continues with three blind door cupboards, including a single-door cupboard on each side and a double-door cupboard to the centre, providing extensive concealed storage. The piece stands on a solid plinth base, adding strength and stability to its commanding form. It comes apart into three sections for ease of transport and retains its original handles and fittings throughout, along with a key. The pine displays a gorgeous grain and warm natural colour, enhancing its character and visual appeal. A breathtaking and highly desirable example, this is a rare piece that truly has to be seen in person to be fully appreciated. Presented in good condition, it would make a perfect addition...
