Date of manufacture: 1880

Dimensions

Height = 34 cm (13.4")

Width = 17 cm (6.7")

Depth = 13 cm (5.1")

Description

A very attractive and unusual mantel/bracket clock with Brockot visible escapement. Housed in an upright, clinically lined case, constructed from faux tortoiseshell, finishing in a plinth base. The 5" (13cm) white enamel dial has black Roman numerals and birdsbeak hands. It is free of any chips, cracks or crazing. It is surrounded by a cast brass, gilt bezel with thick, bevelled glass. Of additional interest, it has a Brockot visible escapement where the action of the "escape" mechanism can be seen working. The 8day movement by S MARTI of PARIS, strikes on a bell on the half-hour and the hour. It has an outside count wheel. It has just been fully serviced by our BHI registered horologist and carries our usual 12mths full parts and labour guarantee. Wall fixing bracket available if required for wall mounting. A very elegant clock. Worldwide delivery available. All cards accepted.
