Description

A beautiful hand made Indian solid silver and moss agate box. It is unmarked but tests as high grade silver. I would date it to c1920. It has been superbly designed being hand made and is in super condition being free from dings splits holes and repairs, no chips or cracks to the agate. It measures over 1.5 inches (4.2cm) square by almost 1.5 inches (3.6cm) tall and weighs 78 grams. A stunning example.
