

SA1210401

Gents Omega 30T2 wrist
watch, 1943

Price

Sold

Item Reference: SA1210401

Date of manufacture: 1940

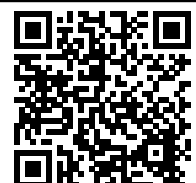

Description

The watch has a hand-winding movement, calibre 30 SC T2, which is working nicely. The movement is fully signed and it has the serial number 9,650,130 which dates it back to 1943. The watch measures 32mm diameter excluding the signed Omega winding crown (possibly later) and the lugs. The case is stainless steel and it is in lovely condition, just some surface marks to the back but not too serious at all. The inside of the case back is signed with the Omega logo. The lens is in lovely condition (some white natural light reflection showing in the photos). The signed dial is in its original finish. We believe that the hands are period replacements. A new leather strap has been fitted. The watch comes in a new presentation box.
