Description

Antique Waltham Colonial Series pocket watch, 1907. The watch has a 17-jewel stem-winding movement, grade 1425, which is working nicely. The movement is fully signed and it has the serial number 13,590,711 which dates it back to 1907. The movement hinges out of the case once the bezel has been hinged open. The watch measures 47mm diameter excluding the winding stem and the loop. The case is gold filled and was made for Waltham by the Crescent Watch Case Company. The condition is good, just gentle unevenness to the back and the odd small mark. The acrylic lens is in good condition (some white natural light reflection showing in the photos). The signed silvered dial is in its original finish with original blued steel hands, a subsidiary seconds dial and outer minute markers. The watch comes in a new presentation box.
