Description

A late eighteenth century oak cased clock by John Watts of Canterbury. The case with an arched top door to match the arch of the hood, and unusually having the hood door hinged on the left. The twelve inch break arch brass dial having a calendar aperture and subsidiary seconds dial below the 12, with an eight day movement striking the hours. An elegant and small clock. Height 81" c. 1770

Internal Ref: Long case clock
