Description

We have a matching pair of rather handsome Art Deco peach/copper coloured mirrored side tables of good scale on walnut bases C1930s. Loving the design and size of these, reassuringly heavy and always pleasing to find a pair. Condition is good, both tables are sitting firm with historic markings and wear. The frames are strong and repair free, no wobbles. We have age foxing to some areas of the original coloured glass and the odd internal chip mark but nothing nasty or particularly off putting but please remember these are not new. We have ensured that both tables are ready to place. So many spaces in the home for this attractive pair. Price is for the pair delivered not each. A jolly attractive pair of Art Deco period side tables C1930s.
