Height = 9.5 cm (3.7")

Width = 8 cm (3.1")

Depth = 3 cm (1.2")

Description

An impressive late 19th century POCKET BAROMETER in full working order signed W. Littlejohn & Son of Wellington, New Zealand.* In addition to measuring barometric pressure (and therefore most useful as a forecaster of weather) these precision instruments also serve as accurate altimeters (because pressure drops by about one inch for each 1000ft) whilst this particularly good example also features a mercury thermometer curved around the inner dial recess. 8cms diameter; circa 1885-1910. * W.Littlejohn was a prominent firm of watchmakers; jewellers and opticians established in 1879 by Wilson Littlejohn, in Wellington. ** This fine Pocket Barometer is not on view in the shop; for further details please call 07860 818212, or e-mail: kerry@quietstreetantiques.co.uk

Internal Ref: 5494/k
