VIRGINIA WALNUT KNEEHOLE DESK

Price

| USD \$3,309 | EUR 2,866

Item Reference: SA1213103

Date of manufacture: 18th Century

Description

An early 18th century walnut kneehole desk with good original handles, and quarter veneered top. The rich colour of the veneers on this kneehole would make us think it is Virginian walnut rather than the European normally used in English desks. A similar coloured piece is illustrated in the Norman Adam's book on 18th century furniture.
