Date of manufacture: 19th Century

Dimensions

Height = 37 cm (14.6")

Width = 37 cm (14.6")

Depth = 17 cm (6.7")

Description

An early 19th century dial clock, the case with a mahogany back box with an iron hanging loop, straight sides and an access door to the right, conforming base with a hinged trapdoor below, with four securing pegs to a narrow mahogany outer ring around a locking cast brass hinged bezel with convex glass, to an off-white painted 12" dial with Roman numerals in black and an outer minute track, and with black steel moon hands, over an eight day timepiece fusee movement with ogee shaped plates. English, circa 1830. Supplied with a pendulum, winding crank and door key. Condition: Overall very good, the clock is in good condition with no damage or repairs, the dial appears to be the original with a couple of very small paint losses, the case is in very good condition with no splits to the wood, the movement has been fully serviced and overhauled and is in excellent working condition.
