Description

A fine Antique 20th Century Jacobean style sideboard in oak, very well made and of good quality. Impressive in both scale and design, the piece features two blind door cupboards—one to either side—each enclosing a useful single interior shelf. To the centre are two practical drawers, all fitted with their original brass handles and fittings. Above, the arrangement includes open shelving and a glazed central cabinet, adding both display space and visual interest, while enhancing the overall Jacobean styling. The piece stands on turned legs united by a sturdy supporting stretcher, giving it excellent stability and presence. The oak displays gorgeous grain and rich colour throughout, highlighting its warm and traditional character. Well made and presented in good condition, this is a highly desirable and versatile example. It also comes apart into two sections for ease of transport, adding to its practicality. A striking and functional piece, perfect addition to any home.
