A Smiths W10 Military Wristwatch

Price

Sold**Item Reference: SA1214373****Date of manufacture: 1960**

Description

A Smiths W10 military wristwatch. A stainless steel case with a moulded chamfered bezel. Down turned lugs with fixed bars. A screw down case back with the military broad arrow showing it was issued to the British military. A black dial with Arabic numerals with lume and a sweep seconds hand. The British military crows foot and T for Tritium in a circle. A lovely patina to the original dial. White outer track for minutes/seconds with luminous rectangles above the quarter markers and luminous dots above the intervening hours. The watch is powered by a Smiths calibre 60466E manual wind, 17 jewel mechanism with a mono-metallic balance. The watches had in house Smiths mechanisms and are accurate timekeepers. The serial numbers date the watch to 1969/70. Case width (excluding crown) 35mm Case height 47mm inc. lugs Case depth 11mm From Kembery Watches you can expect a genuine wristwatch, sold with 12 months guarantee. To order the watch please phone 01179565281. If you have any questions regarding our watches please call us or email us and we will be happy to help you. We can send you a Whatsapp video and show you in more detail.
