Antique 1910s silver pocket watch and chain

Price

GBP 195

| USD \$263 | EUR 228

Item Reference: SA1214428

Date of manufacture: 1910

Description

Antique 1910s silver pocket watch and chain. The watch has a 15 jewel Revue stem-winding movement which is working well. Records show that Alphonse Thommen began using the Revue name at the beginning of the 1900s. The movement is protected by an inner metal hinged cover which has a couple of light surface scratches. The inner cover is stamped Anker 15 Steine (jewels). The watch measures 50mm diameter excluding the winding stem and the loop. The case is .800 silver and has Continental silver marks to the inner case back. The case has light surface marking and the odd small "ding" but overall it is in nice condition for a 1910s piece. The front and back bezels on the case were originally gold plated although only traces are left now. The acrylic lens is in nice condition. The dial is in nice condition with later period gold hands. The watch comes with a single silver chain, 31cm long including the T-bar and the clasp. The watch and chain will be sent in a new presentation box.
