Description

An elegant and highly practical George V Walnut Serpentine Tallboy crafted in beautifully figured walnut with an attractive serpentine front. Dating from the George V period, this antique tallboy is constructed in two separate sections, making transportation and positioning around the home far easier than a traditional one-piece chest. The tallboy features a superb arrangement of graduated drawers offering generous storage while retaining refined period proportions. The drawers are fitted with the original brass handles, enhancing the authentic character and timeless appeal of the piece. Raised on shaped bracket feet, the chest displays wonderful walnut grain and elegant curves typical of quality early 20th century English furniture. Ideal for a bedroom, dressing room, hallway, or living space, this antique walnut tallboy combines practicality with classic British craftsmanship and warm period charm. The two-section construction is especially useful for modern homes, staircases, and apartments where access can be challenging. Key Features • Authentic George V walnut serpentine tallboy • Attractive serpentine shaped front • Constructed in two sections for easy transport...
