Description

This most eye catching piece of fine artwork dates to circa 1930 and is a Balinese painting on fine canvas laid onto a card and shows a kaleidoscope type image where every available space has been filled with amazing detail and colour. The view shows a ritualistic celebration with musicians playing instruments and dancing girls. There is feasting with abundant amounts of food in a richly decorated scene. This complicated image is difficult to digest at a glance and needs to be studied to be fully appreciated. It is signed by the artist in the bottom right hand corner. The painting is displayed in its original hand carved hardwood frame, which is also of Balinese origin. Sizes including frame: Height 60cm x width 46cm x depth 20cm Circa 1930
