Description

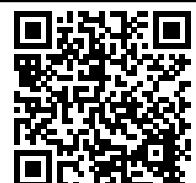

A Nice Antique Victorian Silver Plated Nautilus Shell Spoon Warmer. The shell-shaped reservoir is intended to be filled with hot water so that serving spoons can be rested warm between use. The body is smoothly finished with a bright reflective surface that emphasises the spiral shell form. The piece is raised on a cast base modelled as rockwork – circa 1890. * As a display object it works well among other serving silver, coastal-themed pieces, or a curated cabinet of table curiosities. Measurements: Height: 5 1/2" (approx. 14cm) Width: 6 1/2" (approx. 16.5cm) Depth: 3 3/4" (approx. 9.5cm) Total weight: 683g In good condition – The silver plated surface shows only light surface wear consistent with age and polishing.
