Description

A delightful money box in oak that dates to around 1910 It is in the shape of a coopered barrel with brass rings and a brass money slot. Has a wooden plate on the base that unscrews to retrieve saved money In completely original condition with patina to the brass and wood that is commensurate with its age. It could be polished but I think it would be a shame to do so Measures 5 1/2 inches high and 4 inches at its widest Delivery to the UK is included in the price, if you require a price to ship overseasplease contact me for a quote An attractive piece of antique green that would make a nice present for a collector
