1930s The General Lever pocket watch and chain

Price

GBP 185

| USD \$250 | EUR 216

Item Reference: SA1215540

Date of manufacture: 1930

Description

1930s The General Lever pocket watch and chain. The watch has a stem-winding movement which is working nicely. The movement is signed, 'Non-Magnetic, The General Lever, Swiss'. The watch measures 57.5mm diameter excluding the winding stem and the loop. The case is nickel and it is in lovely condition. The bezel unscrews so that the movement can hinge out the front of the case. The glass lens is in good condition. The dial has a couple of scratches. The watch comes with a single chain, 35cm long including the T-bar and the clasp, of ideal proportions for the watch. The watch and chain come in a vintage presentation box.
