Date of manufacture: 1940

Description

Gents Longines wrist watch, 1940. The watch has a calibre 12.68 hand-winding movement which is working nicely. The movement is signed with the Longines name, and it has the serial number 6,016,966 which dates it back to 1940. The watch measures 32.5mm diameter excluding the later winding crown and the lugs. The case is stainless steel and it is in good condition, just general light surface marks mainly to the back of the watch but nothing too serious. The lens is in good condition (some natural light reflection showing in the photos). The signed dial has blued steel hands, a subsidiary seconds dial and outer minute markers. Some light marking to the dial but very acceptable for a watch of this age. A new leather strap has been fitted. The watch comes in a new presentation box.
