Description

This is a remarkable Museum quality unrestored and unworn example of the Heavy 9ct solid gold Omega Seamaster on full solid gold bracelet from 1967. The only work we have carried out is to service the movement and give the case a light polish with a soft cloth. The solid 9ct gold case is 35mm in diameter excluding the original crown, a full size gents. The case edges are sharp and crisp the watch looks like it was kept hidden away in a drawer and never worn. The movement is the super reliable Omega calibre 552 automatic winding movement. It has been freshly serviced and is currently running at plus 3 seconds per day, not bad for a 60 year old watch. It has an 888 serial number which is considered to be very lucky in many cultures. The starburst texture dial is totally original and perfect it has had no restoration whatsoever. The 9ct gold hallmarks indicate that this watch was made in 1967. The case was made for Omega by the British company Dennisons who made most of the solid 9ct gold cases used by Omega. Dennison cases tend to be around 25% heavier than the standard Omega watch cases. The heavy solid 9ct gold bracelet is full length as it left the factory at...
