Item Reference: SA1218118

Date of manufacture: 1900

Dimensions

Height = 29 cm (11.4")

Width = 5 cm (2.0")

Description

A good example of a high quality three draw telescope dating from the late 19th / early 20th Century. It is a powerful leather clad telescope with brass tubes, a sliding eyepiece cover and its original brass lens cap. The eyepiece tube is marked with an anchor logo and "Trade Mark. TRYMF". The telescope is in good condition for its age. It is fully functional with undamaged lenses. The lenses are generally clean and they produce a clear and crisp image. The brass tube has a few small dinks and the leather has some minor signs of age and use but nothing detrimental. Approximate Measurements : Length extended : 32 1/4" / 82cm Length closed : 11 1/2" / 29cm Front Diameter : 2" / 5cm The best description comes from the photos so please look at them all carefully and if you have any questions just ask. Tracked UK Delivery £7
