Item Reference: SA1218203

Date of manufacture: 1880

Description

A superb set of silver plated serving spoons. They are unmarked I would date them to c1880. They have been beautifully designed being decorated with snakes and gilded highlights. They are in superb condition being free from dings splits and repairs. They measures approx. 9 inches (23cm) long by 2.25 inches (5.7cm) wide and have a combined weight of 152 grams. A very nice quality set.
