Description

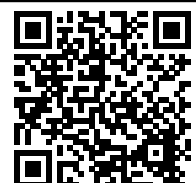

A beautiful and elegant antique Edwardian inlaid mahogany kidney shaped desk. This was made in England, it dates from the 1900-1910 period. The quality is superb, this is very well made and it is a useful size. It is nicely polished on all sides, so can be used as a free standing item. The inset leather top is hand coloured and gold tooled, with lovely inlaid sunburst patterns on either side. The drawer fronts are cross banded with satin wood and have wonderful brass handles. The legs are beautifully tapered, and are connected by nicely curved stretchers for stability. We have recently had this re-polished, it is in excellent condition for its age.
