Description

Antique Waltham Traveler pocket watch, 1903. The watch has a 7-jewel stem-winding movement, Traveler grade, which is working nicely. The movement is fully signed and it has the serial number 12,815,849 which dates it back to 1903. The movement is protected by an inner hinged cover. The watch measures 50mm diameter excluding the winding stem and the loop. The case is gold filled and was supplied to Waltham UK by the English watch case maker Aaron Dennison. It is in good condition, just minor marking but nothing too serious at all. The acrylic lens is in good condition. The dial has a hairline by number 4 but it is faint. The watch comes in a new presentation box.
