Description

are Late 17th Century William & Mary Walnut Chest of Drawers An exceptionally rare and absolutely remarkable late 17th-century William and Mary period walnut chest of drawers, dating from circa 1690. Handcrafted more than three hundred years ago, this piece is a magnificent surviving example of early British cabinet making and represents a vanishingly rare opportunity for the discerning collector or interior designer. Very rarely do chests of this exceptional caliber, condition, and striking decorative detail come onto the open market. Design & Craftsmanship The chest is a true thing of beauty, showcasing the masterful artistry of the William and Mary era. The drawer fronts feature exquisitely figured walnut veneers, carefully chosen for their rich, dramatic grain pattern. Each drawer is framed by a highly unusual and intricate geometric herringbone string inlay design, adding immense visual depth and architectural interest to the facade. The chest retains its classic configuration of two short over three long graduated drawers, all running smoothly. It is adorned with elegant, period-correct cast brass teardrop handles and elaborately chased escutcheons that complem...
