Description

This is a rather lovely Early 20th century estate made blacksmith hanging light. The design is gothic inspired with the lovely flower head details. The patina is very attractive also. Another nice feature to this light is the hanging stem has metal leaves running down it. High quality piece throughout. The main lights are the 4 arms that are wired and then there is the further 4 hanging points that within them have a form of holder which I had thought maybe for candles but hanging down would suggest not. Regardless a lovely light. Height 83cm Diameter 70cm Can be wired for UK, US and EU
