Description

Framed herbarium pages are always a great addition to an interior. These are a wonderful set of specimens that are mounted onto nice weight paper and each has a hand written label stating what it is. 20th century in age. The frames themselves are attractive but I need to state very standard and only have protective plastic in them not glass. We will send them down as is or we can always frame these properly for you in your desired style at an additional cost. The specimens themselves are a lovely muted set of colours that give them an aged attractiveness. Height 42cm Width 32cm
