165 x 248cm 18th Century
European Needlework
Tapestry, Probably French

Price

GBP 5,950

| USD \$8,056 | EUR 6,962

Item Reference: SA1219364

Date of manufacture: 1750

Description

Obviously inspired by a verdure tapestry this beautiful needlework was probably made in France, and is a monumental piece of work. Needlework is much slower than tapestry so would have taken much longer than a tapestry of equivalent size. The subject matter is familiar and soothing, layers of green and blue foliage, a pair of birds and various flowering plants in front of a distant background, possibly mountainous and a fair attempt at aerial perspective has been made, where things further away appear lighter in colour. An almost regal border with a gold background and a leafy vine winding around a pole. Freshly lined, conserved and lightly cleaned, ready for your wall. 5'5" x 8'4"
