Description

1912 Waltham Traveler pocket watch. The watch has a seven jewel stem-winding movement, Traveler grade, which is working nicely. The movement is fully signed and it has the serial number 18,778,196 which dates it back to 1912. The movement is protected by an inner protective cover. The watch measures 50mm diameter excluding the winding stem and the loop. The case is gold filled and it is in good condition, just some fairly gentle unevenness to the case back and general light surface marks. The acrylic lens is in good condition, as is the signed dial with just a very short faint hairline towards the top of the dial, very difficult to see with the naked eye. The watch comes in a new presentation box.
