**Date of manufacture: 1950**

## Description

Gents 1950s Silvana automatic wrist watch. The watch has a Swiss 17-jewel automatic movement which is working nicely. The watch measures 32.5mm diameter excluding the winding crown and the lugs. The case is chromium plated while the screw-on case back is stainless steel. The case is in lovely condition, as is the lens, just a couple of small marks to the edge. The signed dial is in very nice original condition with original hands, centre seconds hand and a power reserve indicator at the top. A new leather strap has been fitted. The watch comes in a new presentation box.
