Description

A large Victorian solid brass country house hot water supply can in immaculate condition c.1885. Oval form with embossed ridged bands of decoration to the upper and lower halves, and folded seam to the rear. Reinforced loop handle to the rear with large angled spout to the front. Covered top with hinged opening rear half for filling the can. Originally used for distribution of hot water in a country house, this superior quality example presented in immaculate condition; watertight and ready for use.
