Description

An elegant and beautifully carved antique alabaster bust depicting a young lady with a serene, contemplative expression. Crafted in the Arts & Crafts taste, this charming sculpture captures the simplicity and grace of the period, featuring soft facial modelling, flowing lines, and a bonneted head that lends a timeless appeal. Hand-carved from finely veined alabaster and presented on its original shaped marble plinth, the piece displays the natural translucency and subtle colour variations prized in quality stone carvings. The delicate craftsmanship and understated beauty make it an attractive decorative object for both traditional and contemporary interiors. A wonderful example of period decorative sculpture.
