Date of manufacture: 1920

Description

1920s Elkington pocket watch. The watch has a Swiss stem-winding movement with 15 jewels, which is working nicely. The watch itself measures 46mm diameter excluding the winding stem and loop. The watch has a gold plated case which is in good condition, just a hint of gentle unevenness to the hinged case back. The glass lens is in good condition, just a small mark towards the centre but not too noticeable. The signed dial is in its original finish with a textured finish, original hands with fleurs de lys detail. The watch comes in a new presentation box.
