Description

A large and very impressive antique Edwardian inlaid mahogany cheval mirror. This was made in England, it dates from around 1900-1910. It is a great size and is of superb quality. The mahogany frame has beautiful inlaid satin wood banding around the edges. There are very well made acorn finials and very impressive, finely detailed brass circular handles which adjust the tension. The base is pierced with lovely lattice work, the splayed legs terminate in brass hairy paw casters. The mirror can be tilted to various angles and removed completely for ease of transport. The actual mirror glass is original & bevelled. There is a little bit of spotting in places, which we have highlighted in the images. This only adds to the character. We have had this recently re-polished, it is in excellent condition for its age. Width – 30.5 inches , 77 cm Depth – 24 inches , 61 cm Height – 68.5 inches , 174 cm Height with mirror detached – 49 inches , 124 cmv
