Dimensions

Height = 59 cm (23.2")

## Description

French Royalty interest! A wonderful pair of copper gothic style wall chargers decorated with the portraits of Henry IV and Queen Marie de' Médicis. The dating of 1601 on the chargers relates to the birth year of their daughter Dauphin, securing the line of succession of the House of Bourbon. It is thought that the chargers are later 19th century copies. These are very stylish statement pieces that will provide a great talking point to add to your walls. Please see our other listings for more antique, retro and vintage furnishings. £245 the pair. Diameter 59cm.

Internal Ref: HF1574
