Brass Lamp.

Price

GBP 595

| USD \$811 | EUR 694

Item Reference: SA1221754

Date of manufacture: 1880

Description

Brass All Round Beacon Light with Aspherical Lens. Beautifully made 1880s Ships Lamp comes with associated hanging bracket. I took the lamp apart as shown in images. I have polished and buffed the outside of the lamp. The inside of the lamp has had a thorough clean and prior to delivery will undergo a full pre-delivery inspection which includes waxing the inside of the lamp and giving the outside a good buff to make sure this lamp arrives to you at its very best. The lens has two chips the biggest of which can be seen in image. I have not re-wired the lamp as still undecided how to achieve the best visual result. A great light in very good used antique condition and most unusual. Lamp Height 47.5cm Diameter 20cm. Bracket Height 35cm Width 11.5cm Depth 23cm. Please note last image is of identical design and manufacture to my lamp. £645 Please don't hesitate to contact me for further information Stephen Alexander 07525494275.
