Description

Beautiful Vintage 9ct gold back and front heart Locket. This pretty heart shaped locket measure 3cm by 2.4cm not including the bale with swirls etched into the top half of the heart. The locket is marked for 9ct back and front, which means the inner parts are not gold. The locket has two empty spaces for pictures. It is a lovely tactile object of good wearable size with a gold bale. The locket is in excellent condition with some minor wear to the gold in accordance with its age. I would say that this locket dates to the early 20th century around the 1950s or 60s. It is a medium sized locket and I have photographed on a hand and with a coin to give the scale. The inside is in good usable condition. Opens and closes well. The total weight is 4.4g Please Check Sizes And Weights As JEWELLERY IMAGES ARE ENLARGED. Dark areas are reflections on the gold. BUY WITH CONFIDENCE: I try to accurately describe my items. I never knowingly mis-sell any item, so please read the description carefully. All items are checked by a professional Jeweller for authenticity; however no certificates are provided. If for any reason the item is found not to be genuine or as described a full refund...
