Description

Omega pocket watch, 1923. The watch has a stem-winding movement, calibre 40.61, 15-jewels, adjusted in two positions, which is working nicely. The movement is fully signed and it has the serial number 6,838,593 which dates it back to 1923. The movement is protected by an inner hinged cover which has some scratching. The watch measures 48mm diameter excluding the winding stem and the loop. The case is nickel. The front and sides are in good condition. There is a gentle unevenness to the hinged back. The inner back has the early Omega logo. The glass lens is in lovely condition. The dial is in very nice condition too. Open diamond shaped hands, a subsidiary seconds dial and outer minute markers. The watch comes in a new presentation box.
