Date of manufacture: 1800

Description

I don't recall ever seeing a really good Yastik (Turkish cushion cover) from the Western Anatolian town of Bergamo before. The colours are excellent, 100% from natural sources and there is good, original pile allover. Although in need of attention to the sides, it has so far gone its whole life untouched. A beautiful and rare collectors item. 1'3" x 2'7"
