Charles II Oak Chest on stand

Price

GBP 1,195

| USD \$1,614 | EUR 1,398

Item Reference: SA1224481

Date of manufacture: 1700

Description

Rare Late 17th-Century English Oak Chest on Stand A truly exceptional and imposing piece of William and Mary era furniture, this chest on stand (or "highboy" in its early form) is a testament to the enduring quality of English Oak. Characterized by its robust construction and rich, deep patina, this piece has been preserved in remarkable condition, retaining its structural integrity and historical charm for over 300 years. Design & Craftsmanship Exquisite Paneling: The chest features classic geometric "moulded" drawer fronts, a signature of the late 1600s. The deep architectural recessed panels create a wonderful play of light and shadow across the oak's grain. Material: Constructed from high-quality, solid English Oak. The secondary timbers and drawer linings also show the authentic hand-planed marks and pegged joinery expected of the period. The Stand: The chest sits atop its original-style stand featuring elegant turned "bun" feet and sturdy stretchers, providing both stability and a sophisticated silhouette that lifts the piece to a comfortable viewing and working height. Hardware: Adorned with period-correct brass "winged" backplate handles and decorative escu...
